

Instructions for Abstract Submission

Abstract submission deadline: April 15, 2026

- Types of presentations:
 - Oral original research, video
 - Novel techniques or troubleshooting techniques
- Abstracts must be related to fluorescence-guided surgery
- All abstracts must be original work, not previously presented or published
- Abstract word limit: 300 words (for both original research and videos)
- Abstract format (original research):
 - TITLE, NAMES OF ALL AUTHORS, AFFILIATIONS OF ALL AUTHORS, BACKGROUND (including aim), METHODS, RESULTS, CONCLUSIONS. The submitting author will be the presenting author.
 - One figure or table can be included (does not impact the word limit).
- Abstract format (Video):
 - Background, Description, Clinical Relevance.
 - Maximum length: 5 min
 - Format:
 - File Format: MP4
 - Codec: H.264 or H.265
 - Resolution: HD (1920×1080) or 4K (3840×2160)
 - Orientation: Horizontal (16:9)
 - Frame rate: 25 or 30 fps (constant)
 - Progressive scan only (no interlaced)
 - Audio:
 - Codec: AAC
 - Sample rate: 48 kHz
 - Embedded within the video
- File name format (original research and video): Author's name_Title.mp4
- Manuscript:
 - Presenters of accepted abstracts must prepare and send a manuscript to info@isfgs.org prior to June 20, 2026 for review and possible submission to the journal Surgery.
 - Manuscripts should be prepared in accordance with Surgery's author instructions.
- Travel grants: ISFGS will award travel grants for authors with accepted abstracts (see link to [Travel Grant application](#))
